📚 20 Ready-to-Record Instagram Scripts

Creator: `@unplugged.raagam` – Bhajan + devotional jam community
Goal: Grow followers, boost engagement, and drive registrations for the **August 8 2026** Bhajan Jamming event.

> **Format Mix:** 10 Reels | 10 Carousels (comparison-carousel style) – each script follows the exact template required.

🎬 SCRIPT #1 – REEL

Title: “The ONE Vocal Mistake That Kills Your Bhajan (and How to Fix It)”

Script Priority Reference – Tier 1, Pattern #1 “Mistake-first Reel” (Prompt 2).

Script Strategy Snapshot
- **Topic:** Common bhajan vocal mistake – “Raga-slip on the ‘Sa’ note”.
- **Angle:** Show the mistake first, then demonstrate the fix in 15 seconds.
- **Format:** Talking-head Reel with on-screen text & live-demo.
- **Intended Reaction:** “Wow, I do that too! 👉 Save this tip.”
- **Tone & Language:** Warm, instructional, emoji-light (“🎤”).
- **Length:** ~30 seconds.
- **Upload Slot: Post 1 of 20** – **Mon 2026-08-01**, **08:30 IST** (Morning “save-heavy” window).
- **Why this slot:** Early-week mornings have the highest carousel-save rate for educational content; the Reel will be cross-posted to Stories for extra reach.

Hook

- **Primary Hook (0-3 s):** “If you’re hitting the ‘Sa’ wrong, your bhajan will sound flat – and nobody wants that!”
- **Alt Hook:** “Ever wonder why your bhajan feels off? It’s this tiny mistake.”
- **Why:** Direct problem statement creates an instant **curiosity gap** and identity resonance for singers.

### Hook
```

```
- **Primary Hook (0-3
s):** “If you’re hitting the ‘Sa’ wrong, your bhajan will sound flat – and nobody wants that!”
- **Alt Hook:** “Ever wonder why your bhajan feels off? It’s this tiny mistake.”
- **Why:** Direct problem statement creates an instant **curiosity gap** and identity resonance

### Full Script
```

[Shot 1: Close-up of LASYA, smiling, studio background. Text overlay: “Bhajan Mistake #1 🚨”]
LASYA (energetic, 0-3s): “If you’re hitting the ‘Sa’ wrong, your bhajan will sound flat – and nobody wants that!”

[Cut to LASYA singing a 4-second phrase of “Raghupati Raghav” – note the off-pitch Sa. Quick zoom on her mouth. Text: “❌ Wrong Sa”]

LASYA (voice-over, 4-7s): “That’s the classic ‘Sa’ slip. Most beginners drop the pitch by a quarter-tone.”

[Split-screen: Left side – the wrong note waveform; Right side – a clean reference tone (metronome beep + correct Sa). Text: “Hear the difference?”]

LASYA (back on camera, 8-12s): “Here’s the fix in 3 steps.”

Step 1 – Breath Support
[Visual: LASYA inhales deeply, diaphragm highlighted in graphic.]
LASYA (voice-over): “Take a slow belly breath, count to 4, exhale on the ‘Sa’.”

Step 2 – Hum Before You Sing
[Visual: LASYA hums the Sa for 2 seconds, waveform shows stable pitch.]
LASYA (voice-over): “Hum the Sa, feel the vibration, then open into the note.”

Step 3 – Anchor with a Drone
[Visual: A tanpura drone plays “Sa” in the background.]
LASYA (on camera, 20-24s): “Sing along with the drone until the pitch stays steady.”

[Final Demo: LASYA sings the same phrase, now perfectly in tune. Text overlay: “✅ Fixed Sa”]
LASYA (closing, 25-30s): “Try these three tricks now and tag me in your practice video. Save this Reel for later!”

```
### Execution Notes
- **Delivery Pace:** Energetic, clear enunciation; pause 0.5
s after each step label.
- **Visuals:** Use a simple graphic to highlight diaphragm; overlay waveforms in bright teal/re
- **On-Screen Text:** Bold, sans-serif, 2-line max per slide.
- **Tone:** Warm-authoritative, like a friendly guru.
- **Don’t**: Look away from the camera while explaining steps; keep eye contact for trust.

### Caption and Hashtag Direction
- **Caption Opening:** “Your bhajan’s ‘Sa’ is the foundation – make it rock! 🎶”
- **Tone:** Conversational with a call-to-action.
- **Hashtag Guidance:** Use 3-5 niche-size tags

Format Mix Required: 10 Reels | 10 Carousels (comparison-carousel style) – each script follows the exact template below.

🎬 SCRIPT #2 – REEL

Title: “3-Second Breath Hack to Hold a 20-Second Sa”

Script Priority Reference – Tier 1, Pattern #2 “Quick-Tip Reel” (Prompt 2).

Script Strategy Snapshot

- **Topic:** Breath-support trick that lets you sustain the tonic (“Sa”) for 20 seconds.
- **Angle:** Demonstrate the hack, then a 20-second live hold.
- **Format:** Talking-head Reel with on-screen timer graphic.
- **Intended Reaction:** “I can do that! Save for practice.”
- **Tone & Language:** Friendly, energetic, sprinkle of Hindi (“□□□□”).
- **Length:** ~30 s.
- **Upload Slot: Post 2 of 20** – **Tue 2026-08-02**, **12:45 IST** (Lunch window – high mid-day scroll).
- **Why this slot:** Lunch-time viewers often watch short “how-to” content while on a break; the Reel’s quick payoff drives saves.

Hook

- **Primary Hook (0-3 s):** “Want to hold a perfect ‘Sa’ for 20 seconds? Breathe like this!”
- **Alt Hook:** “The secret to a never-wobbly ‘Sa’ is just one breath.”
- **Why:** Instantly promises a tangible result → **curiosity gap** + identity resonance for singers.

Full Script

```
[Shot 1: LASYA standing, soft ambient light, timer graphic appears top-right “0:00”.]

LASYA (bright, 0-3s): “Want to hold a perfect ‘Sa’ for 20 seconds? Breathe like this!”

[Cut to close-up of her diaphragm area; graphic “Diaphragm ↓”.]

LASYA (voice-over, 4-7s): “Step
1 — Inhale *deep* through the lower ribs, count to 4, fill your belly.”

[Visual: LASYA inhaling, belly expands, a faint pulse animation follows the count “1-2-3-4”.]

LASYA (on camera, 8-11s): “Step
2 — Hold the breath, engage the core, and *slowly* exhale on the ‘Sa’.”

[Timer starts counting up as she sings a clean ‘Sa’, waveform stays flat. Text overlay: “20
s Sa”.]

LASYA (voice-over, 12-18s): “Feel the vibration in the chest, not the throat. Keep the mouth re

[Timer hits 20 s, LASYA smiles, hands raised. Text: “✅ 20 s Sa”.]

LASYA (closing, 19-30s): “Try this now, record your 20-second Sa and tag #SaChallenge. Save thi

🎬 SCRIPT #1 – REEL

Title: “The ONE Vocal Mistake That Kills Your Bhajan (and How to Fix It)”

Script Priority Reference – Tier 1, Pattern #1 “Mistake-First Reel” (Prompt 2).

Script Strategy Snapshot

- **Topic:** Flat “Sa” – the most common pitch-drop mistake in bhajans.
- **Angle:** Show the mistake first, then a 3-step fix in 30 seconds.
- **Format:** Talking-head Reel with split-screen demo & graphic overlays.
- **Intended Reaction:** “I do that too! 👉 Save this tip.”
- **Tone & Language:** Warm, instructional, emoji-light (“🎤”).
- **Length:** ~30 seconds.
- **Upload Slot: Post 1 of 20** – **Mon 2026-08-01**, **08:30 IST** (Morning “save-heavy” window).
- **Why this slot:** Early-week mornings have the highest save-rate for bite-size vocal drills; the Reel will also be cross-posted to Stories for extra reach.

Hook

- **Primary Hook (0-3 s):** “If you’re hitting the ‘Sa’ flat, your bhajan will sound lifeless – and nobody wants that!”
- **Alt Hook:** “Ever wonder why your bhajan loses its sparkle after the first line?”
- **Why:** Instantly identifies a pain point, creates a **curiosity gap**, and promises a concrete fix.

Full Script

```
[Shot 1 – Split-screen. Left: LASYA sings “Sa” flat (waveform jagged). Right: reference tone (metronome beep + clean Sa). Text overlay: “Hear the difference?”]

LASYA (on-camera, 0-3s, upbeat): “If you’re hitting the ‘Sa’ flat, your bhajan will sound lifeless – and nobody wants that!”

[Quick cut – full-screen LASYA, smiling.]

LASYA (4-6s): “Here’s the fix in 3 steps.”

**Step 1 – Breath Support**
[Visual: LASYA inhales deeply, diaphragm highlighted in a soft blue graphic.]
